french broderie d'art - lunéville embroidery

with Judith Weinmair

In this Broderie course we learn the technique "Crochet de Lunéville" (Tambourinadel) and develop the basic engraving and its creative design possibilities with yarns alone. In the following we practice the embroidery of pearls and sequins with the "Crochet de Lunéville".

In the weekend project "Butterfly" we finally combine the Lunéville embroidery with different needle techniques and other materials. A small work of art emerges in the character of the "Broderie d'Art".

Suitable for participants without a sticker experience. Material and equipment are provided.

Unfortunately, this course had to be canceled at short notice in November 2017. This time, with the same number of course hours, it will be conducted on two days instead of three.
